“The effects of focal brain damage on fracture healing: An experimental rat study” in the imprinted article, there was an unintentional lack of contribution regarding the Acknowledgment section of the manuscript. The corrected and revised version of the Acknowledgment section should be as follows:

Acknowledgment: The authors express their deepest gratitude and appreciation for the assistance and support received throughout the completion of this research paper. We would like to take this opportunity to acknowledge the contributions of the individuals and institutions, at Başkent University, who have played a significant role in completing this research project.

First of all, we would like to thank Rahmi Can Akgün, MD for his invaluable guidance, encouragement, and support throughout this research endeavor. Also, Ayşen Terzi, MD, Salih Gülşen, MD, Ş. Remzi Erdem MD’s insightful feedback was instrumental in shaping the direction of this research paper.

Finally, we would like to express our heartfelt thanks to our peer and colleague Sema Bozalioglu, PhD. and A.Muhteşem Ağıldere, MD., and their constructive feedback and excellent collaboration, which enriched the intellectual discourse of this research project.

We sincerely apologize to the readers for this inconvenience.

Yours sincerely.
